CIRCULAR REGARDING IMMERSIVE EXPERIENCES FOR STUDENTS

Dear Parents,

Namaste!

In our continual pursuit of excellence and in keeping true to our motto of **'igniting curiosity and nurturing creativity'**, we are extremely pleased to offer our students unique experiences that truly take learning beyond the classroom.

For students of **Classes 7 and 8**, we have

'To see is to Think', a powerful visual communication program from the **Smithsonian American Art Museum**.

The **aim** of this program is to enable students to:

- Use visual vocabulary to articulate observations and interpretations of artworks made with a variety of media;
- Support observations and interpretations with evidence;
- Reflect upon, compare, and assess artworks

In a world filled with images, it is important to be visually literate. While exploring artworks that represent various time periods, styles, and mediums, students will:

- 1) build a visual vocabulary and learn how to form interpretations based on visual evidence, and
- 2) build visual literacy by examining the choices artists make in their work and why.

Continuing in our quest, we are also pleased to offer for students of **Class 2**, an opportunity to virtually connect with park rangers of the **Rocky Mountain National Park, Colorado, USA**

The **aim** of this program is

- Make students aware of the flora and fauna of the park
- The unique adaptations of the park animals

- Compare and contrast the animals found in the park with animals found in India
- Make students recognise and realise about care that animals offer to their offspring

Park rangers Catherine and Emily will take this program forward.

Stay tuned for many more such immersive experiences for students across all grades.

Stay Safe, Stay Positive, Keep Learning.
