CIRCULAR REGARDING GLOBAL COLLABORATION PROJECT KICKOFF

Dear Parents,

Namaste!

We are extremely pleased to announce that our global collaborative project with the William Fletcher Primary School took off to a great start last week.

An intriguing and absorbing panel discussion ensued based on common environmental issues and also the United Nations' Sustainable Development Goals.

Students were also curious about the school life of their British counterparts and asked them pertinent questions too!

In the days and months to come we plan to have more such engaging conversations around key issues and help our students to become truly global citizens.
